Capability Statement

FuelCare delivers certified fuel testing, tank maintenance, and compliance reporting for public infrastructure clients throughout the Western United States.

We help cities, utilities, and public agencies keep operations running with clean fuel, no disruption, and 48-hour, photo-documented reports.

Core Competencies

- Underground (UGST) & Aboveground (AST) Storage Tank compliance testing
- Fuel sampling with third-party lab analysis
- Fuel polishing, water removal, and remediation
- Spill bucket and overfill prevention testing
- Internal tank cleaning and minor repairs
- 24/7 access to photo-documented service reports

Differentiators

- 2 business day turnaround on regulator-ready reports
- WA-based and locally trusted since 2015
- Online portal for easy audit prep and recordkeeping
- One vendor for testing, maintenance, and documentation
- Trusted by public works, water districts, hospitals, and ports

Who We Serve

- **Grays Harbor County** – Annual testing & fuel maintenance across 4 road district sites

Experience

Grays Harbor County Public Works (Prime)
2017–Present | Lifetime Value: $150,000+
FuelCare provides annual fuel tank service and maintenance across four road district sites. Work includes visual fuel assessments with third-party lab analysis, compliance testing, recommended preventive maintenance, fuel polishing, and remediation where required.

Washington State DOC – Clallam Bay Corrections Center (Prime)
2021–Present | Lifetime Value: $45,000+
FuelCare initially restored fuel in a tank that was highly contaminated. Ongoing services include annual and triennial compliance testing, annual fuel tank maintenance and fuel remediation, and polishing with third-party laboratory analysis.

Port of Anacortes – Marina Fuel Dock & Airport (Prime)
2019–Present | Lifetime Value: $100,000+
FuelCare conducts annual fuel tank maintenance at both marina and airport locations. Annual services include visual fuel assessments with laboratory testing, followed by preventive maintenance, polishing, and remediation as needed.

University of Washington-Harborview Medical Center (Prime)
2020–Present | Lifetime Value: $75,000+
FuelCare provides biannual maintenance for all hospital fuel and generator tanks. Services include visual fuel assessments, laboratory analysis, and follow-up maintenance. FuelCare ensures full compliance with Joint Commission standards, consistently supporting successful audit outcomes.

Silver Lake Water & Sewer District (Prime)
2019–Present | Lifetime Value: $160,000+
FuelCare maintains 20+ generator tanks across 17 locations, including lift stations and main facilities. Services include visual fuel assessments with laboratory analysis, preventive maintenance, fuel polishing, remediation, and minor repairs as needed.
